

 **GATEWAYS**
for **GROWTH**

CALL TO ACTION

8:30 AM MONDAY, JUNE 26
SUITE LEVEL LOUNGE, PARKVIEW FIELD

DOWNTOWN
Fort Wayne

Amani Family Services, Greater Fort Wayne, Inc., and Downtown Fort Wayne are partnering to explore ways to remove barriers that limit the contributions and advancement of all immigrants in our community. **We want to share about this critical community work and seek your input.**

We received a Gateways for Growth Challenge (G4G) grant that provides a competitive opportunity for localities to receive research support and technical assistance from the American Immigration Council and Welcoming America to improve immigrant inclusion in their communities. Fort Wayne is one of ten communities across the nation selected to participate in the 2023 G4G cohort to gather critical data needed to create a more welcoming, engaging, and equitable community.

This work will involve a community survey, focus groups, and work by key leaders to develop a 3–5-year Strategic Immigrant Integration and Inclusion Plan.

Please join us and other invested community partners to learn more about this year-long initiative and how you can support a new community survey and the creation of a transformational community strategic plan.

A light breakfast will be served.

ABOUT G4G

In 2016 New American Economy (NAE) — now the American Immigration Council — and Welcoming America (WA) launched the Gateways for Growth Challenge (G4G), requesting public and private sectors to jointly apply for research funding that promotes the inclusion of immigrants and refugees.

Since its inception, G4G has created a network of more than 70 localities across 35 states deploying economic research and multi-sector welcoming plans to forward inclusion and economic opportunity for all.
